

BUY AMERICA ACT CERTIFICATION

By law, American-made mill and foundry products must be used in all Federal Transportation projects and all state and local government project that use Federal Transportation funds.

The Buy America provision of the law explicitly requires steel and cast iron material manufactured in United States mills or foundries are used in Federal Transportation infrastructure projects. Under the various "Buy America" definitions, the following are those that we comply with:

- American Recovery and Reinvestment Act of 2009, Section 1605 – Buy America Act
- Federal Highway Administration, 23 U.S.C. § 313 – Buy America; 23 C.F.R. § 635.410
- Federal Transit Administration, 49 U.S.C. § 5323(j); 49 C.F.R. Part 661
- Federal Aviation Administration, 49 U.S.C. §50101

TufTile galvanized steel and cast iron detectable warning tiles and radius-wedges are manufactured in the United States from United States made steel in accordance with Buy America, 23 C.F.R § 635.410 requirements.
